About Hydro International Ltd:

Hydro International was established in 1994 and since this time the company has grown to become prominent leader in the water and wastewater industry. We pride ourselves on a solution-based, customer focus approach in offering turn-key projects to the municipal and industrial sectors. In addition to design, build, operation, and maintenance capabilities Hydro International also has an extensive off-site manufacturing and innovation facility based in Navan, Co. Meath. This facility supports our Design for Manufacture and Assembly (DfMA) function as well as our machine-building capabilities for water/wastewater treatment and dewatering.

The Role:

Reporting to the Workshop Manager this role involves creating & building stainless steel wastewater tanks and ancillary equipment. The ideal candidate should have a proven track record of working in a workshop environment and possess good knowledge of Stainless Steel TIG welding. The capability to use brake presses, guillotines, cutting, drilling equipment & various workshop tools. The ability to read drawings and interpret site sketches is a pre-requisite.

Main Duties and Responsibilities:

The main duties and responsibilities of Mechanical Fitter/Fabricators are outlined as follows:

- Work as part of a team in the delivery of one or more projects at any one time, embracing the ethos of a “one team” culture.
- Ensure Health, Safety and Environmental standards, policies and procedures always adhere.
- Review of design stage mechanical drawings and P&ID in order to validate designs, familiarise with the project, and spot issues before they arise. Provide input and feedback on design in order to contribute to DfMA efficiencies.
- Work well on own initiative with a good work ethos to achieve a high production output.
- Complete tanks, sub-assemblies & small parts as required.
- Quantity and Quality of work to be of a high standard, free of defects and with attention to detail.
- Ability to problem solve, able to complete tasks with minimal supervision
- Complete all test documentation and inspection and test plans (ITPs) as required
- An ability to weld in flat, horizontal, vertical and overhead positions.
- Actively participate in product and process improvement by providing lessons learned feedback and innovative solutions for adoption on future projects.
- Other duties as required from time to time.
- Must be neat and have good housekeeping skills.

Knowledge, Skills and Experience:

The main knowledge, skills and experience required of Mechanical Fitters are outlined as follows:

- Minimum of 3+ years' experience working in a similar role in a fast-paced manufacturing and repair workshop
- Experienced in TIG welding with flat, folded, and pipe projects.
- Ability to liaise on a technical level with Engineering Department to support product improvements.
- Must have basic Weld polishing & cleaning experience.
- Ability to work as part of a team with excellent communication and interpersonal skills.
- Ability to manage time when given a work list, including continuous feedback to the line manager on work close-out.
- Main thicknesses used are 1mm to 6mm so the applicant must be comfortable with working on light materials.
- Ability to use own initiative, problem solve and adjust as issues arise.

How to Apply:

To apply for a position please send a CV and cover letter to Recruitment@glanagua.com quoting the job reference number in the title of the email.

Alternatively apply by post to HR Manager, 20 Mullaghboy Industrial Estate, Navan, Co. Meath, Ireland, C15TK63. As with application by email please quote job reference number in the title of the letter.
